WhatsApp AI Bot: mahana kharcha (Roman Urdu notes)

Naye store (Lahore, Punjab) ke liye andaza, 20 October 2026. Qeematein isi din online check ki gayi. Sab raqam US dollar mein; PKR taqreeban Rs 280 fi $1 (open market, 13 Oct 2026).

Bill	Kis cheez ka	Kaise lagta hai	Kitna aham
Meta (WhatsApp)	Bot ka har jawab jo customer tak jaye	Har delivered message, 1,000 free har mahine ke baad	**Sab se bada**, jab customers barhte hain
Groq (AI)	Message samajhna, jawab likhna, voice ko text banana	Tokens (text) aur audio ke seconds par	Bahut kam: ek paise se bhi kam fi message
AWS (server)	Woh computer jis par bot aur database chalta hai	Har ghante ka fixed kiraya	Shuru mein naye account ke credit se free

1. Meta: WhatsApp ki fees

- **1 October 2026** se Meta bot ke aam jawabon (**service messages**) ke paise phir se le raha hai, har **deliver** hone wale message par.
- Har business number ko **har mahine 1,000 service messages free** milte hain. Bache hue agle mahine nahi jaate. 1,001 wa message aur us ke baad wale paid hain.
- **Customer ka message aana free hai.** Paise sirf us message ke jo business bhejta hai, aur **har message alag gina jata hai**: ek chat mein bot ne 20 jawab diye = 20 messages. Har picture bhi ek alag message hai.
- Meta Billing Hub mein payment method (card) zaroori hai, warna 1,000 ke baad jawab jaana band ho jayega.
- Testing wala number free hai. Paise asli business number par shuru hote hain.

Pakistan ka rate (USD fi message, 1 Oct 2026 se)	Service (bot ke jawab)	Utility	Authentication	Marketing
Rate	$0.0150, 1,000 free ke baad	$0.0150	$0.0150	$0.0473

Hamara bot sirf service jawab bhejta hai. Utility aur marketing sirf un template messages par hain jo business pehle khud bheje (yeh bot nahi bhejta).

2. Groq: is project ke AI models

Bot mein kaam	Model	Groq ki qeemat	Fi customer message
Message samajhna (router) aur jawab likhna (composer)	openai/gpt-oss-120b	$0.15 fi 10 lakh input tokens, $0.60 fi 10 lakh output tokens	taqreeban **$0.0006** (naapa gaya: ~1,800 tokens fi message, retry ki gunjaish ke saath)
Voice note ko text banana	whisper-large-v3	$0.111 fi ghanta audio, har note kam az kam 10 second	taqreeban **$0.0006** fi 20 second ka note
(voice ka sasta option)	whisper-large-v3-turbo	$0.04 fi ghanta audio	taqreeban $0.0002 fi 20 second ka note

Groq mein koi fixed mahana fees nahi: jitna use, utna bill. Asli customers ke liye paid (Developer) plan chahiye, taake rate limit na lage.

3. AWS: server (EC2), naya account

- **Naye AWS account** (15 July 2025 ke baad bana) ko sign-up par **$100 credit** aur chhote onboarding kaam karne par **$100 aur** milte hain. Free plan **6 mahine** ya credit khatam hone tak, jo pehle ho.
- Free plan par sirf yeh servers chalte hain: t3.micro, t3.small, t4g.micro, t4g.small, c7i-flex.large, m7i-flex.large. Free plan khatam hone se pehle Paid plan par jaana hoga (AWS data 90 din rakhta hai, phir delete).
- Region: **Mumbai (ap-south-1)**, Pakistan ke sab se qareeb. Bot ko taqreeban 2 se 4 GB memory chahiye (database + embedding model + app).

Server (Mumbai)	CPU / memory	Server fi mahina	+ public IP + 30 GB disk	Kul fi mahina	Kab
t3.small	2 vCPU / 2 GB	$16.35	$3.65 + ~$2.70	**~$23**	Free plan (credit): yahan se shuru, swap ke saath
c7i-flex.large	2 vCPU / 4 GB	$61.90	$3.65 + ~$2.70	~$68	Free plan, agar 2 GB kam pare (credit jaldi khatam)
t3.medium	2 vCPU / 4 GB	$32.70	$3.65 + ~$2.70	**~$39**	Paid plan (credit ke baad)

t3.small par $200 ka credit poore 6 mahine ka free plan cover karta hai (~$136). Internet par data bhejna: pehle 100 GB har mahine free (bot is se bahut kam use karta hai).

4. Kitne messages par kitna kharcha (seedha hisaab)

Har customer message ka ek bot jawab, mahina 30 din, 20% messages voice notes (20 second), pictures shamil nahi. **AWS credit ke dauran** server ka kharcha aap ki jeb se nahi; **credit ke baad** t3.medium (~$39) jud jata hai.

Roz ke customer messages	Mahine ke bot jawab	Meta (WhatsApp)	Groq text	Groq voice	Kul: AWS credit ke dauran	Kul: credit ke baad (~$39 server)	PKR mein (credit ke baad)
30	900	$0.00	$0.54	$0.11	**$0.65**	**$39.73**	~Rs 11,100
100	3,000	$30.00	$1.80	$0.37	**$32.17**	**$71.25**	~Rs 20,000
300	9,000	$120.00	$5.40	$1.11	**$126.51**	**$165.59**	~Rs 46,400
500	15,000	$210.00	$9.00	$1.85	**$220.85**	**$259.93**	~Rs 72,800
1,000	30,000	$435.00	$18.00	$3.70	**$456.70**	**$495.78**	~Rs 138,800

Meta ka hisaab: (mahine ke bot jawab – 1,000 free) × $0.015. Misaal, roz 100 messages: (3,000 – 1,000) × $0.015 = $30.
Roz taqreeban 33 jawab tak WhatsApp ka hissa free hai (mahine ke 1,000). Us ke baad fi-message kharche ka 90% se zyada Meta ka hai; Groq sirf chand dollar rehta hai.

5. Hamare naye store ke liye asal andaza (imaandari se)

Upar wali table messages ki ginti par hai. Lekin **naye store par aksar ek customer ek message nahi bhejta, ek chat karta hai**: 'price?', 'available hai?', 'COD hai?', 'delivery kitne din?', 'aur pictures'. Lahore aur Pakistan ke WhatsApp customers ka aam tareeqa yahi hai. Is liye neeche andaza **chats** se hai: har chat mein taqreeban **5 bot jawab + 1 picture = 6 messages**.

Haalat	Roz ki chats	Mahine ke bot messages	Meta	Groq	Kul: AWS credit ke dauran	Kul: credit ke baad
Bilkul shuru, kam log (pehle 1 se 3 mahine)	5	900	$0.00	$0.54	**$0.54** (~Rs 200)	**$39.62** (~Rs 11,100)
Social media / thori ads chal rahi	15	2,700	$25.50	$1.63	**$27.13** (~Rs 7,600)	**$66.21** (~Rs 18,500)
Ads achi chal rahi	40	7,200	$93.00	$4.34	**$97.34** (~Rs 27,300)	**$136.42** (~Rs 38,200)
Bara aur mashhoor store	100	18,000	$255.00	$10.85	**$265.85** (~Rs 74,400)	**$304.93** (~Rs 85,400)

Seedhi baat: naye store par shuru ke mahinon mein roz **5 se 15 chats** aana aam baat hai. Is ka matlab: **pehle 6 mahine (AWS credit) taqreeban $0 se $30 mahina** (Rs 0 se 8,000), aur credit ke baad **taqreeban $40 se $70 mahina** (Rs 11,000 se 19,000). Roz 7 chats tak (mahine ke ~1,000 messages) WhatsApp bilkul free hai. Bara kharcha tab aata hai jab ads se roz 40+ chats aane lagen, aur tab orders bhi zyada honge.

Yeh andaza hai, guarantee nahi: asal ginti ads, season (Eid, sale) aur post par depend karti hai. **Pehle mahine ke baad bot ke apne record (messages table) se asal ginti nikal kar hisaab dobara karenge.**

6. Table mein kya shamil nahi

- **Domain** (~$10 se $15 saal ka) us HTTPS address ke liye jahan Meta messages bhejta hai.
- **Handoff alerts** email se jaate hain, free. Agar staff ko WhatsApp par bheje, to woh template messages hain aur un ke paise lagte hain.
- **LangSmith** (tracing) zaroori nahi; is mahine ka free quota testing mein khatam ho chuka, production mein band rakhein ya paid plan lein.
- Qeematein badalti rehti hain. Pakistan ka Meta rate do alag articles se hai jo Meta ke rate card ka hawala dete hain; go-live se pehle Meta ke apne rate card par confirm karein.

7. Bot kharcha kaise kam rakhta hai (pehle se bana hua)

- Ek sawal ka ek chhota jawab, kai tukde nahi; picture sirf maangne par (pehle 1, 'aur' kahne par 3).
- Har customer ki had (minute, ghanta, din): spam karne wala Meta ka bill nahi barha sakta.
- AI aur voice ka daily budget: 80% par team ko alert, 100% par bot sirf chat team ko deta hai.
- Voice ke liye whisper-large-v3-turbo (taqreeban ek tihai qeemat) par ja sakte hain, agar accuracy test theek aaye.

8. Faisle jo store owner ko lene hain

- Meta ka bill kaun dega, aur go-live se pehle Meta Billing Hub mein card lagana.
- Bot kis number par chalega (naya SIM behtar; mojooda WhatsApp number phone app se nikal jayega).
- Groq ka paid plan, aur AWS ko Free plan se Paid plan par kab le jaana hai.
